-

Approved to pursue the B.A./M.A. B.S./M.S. program in _____
(circle one) department

Department Chair	Date
------------------	------

-
- Acceptance into the Combined Bachelor's and Master's Degree Program does **not** guarantee acceptance into a graduate program.
 - Separate application to the graduate program must be made through the Office of Admissions following normal graduate admission application procedures. Admission to a graduate program is subject to departmental criteria in place at the time of admission and includes review of final transcripts and test scores.
 - Students in the Combined Program must obtain a "Request to Take Graduate Courses" form from the Registrar's office each term in which they wish to register for graduate coursework. Eligibility will be verified by the Registrar's office each semester.
 - Upon final clearance for the Bachelor's degree this form should be filed with the graduate coordinator in the Department and College pending formal acceptance into the graduate program.
